Local Squad Reports Activities For Year

The Appomattox County Rescue Squad has had a busy but rewarding year. One main achievement for eighteen squad members was the earning of certificates for a 72-hour Emergency Medical Technician Course, which is advanced training in First Aid. The squad members completing this training feel that they are better qualified to serve the people of our area.

During the past fiscal year, September 1, 1971 through August 31, 1972, the Appomattox County Rescue Squad responded to a total of 451 calls, traveling a total of 21,840 miles in answer to these calls and spending 1801¼ man-hours assisting people in need of their services.

Forty-three of the calls were in answer to auto accidents with personal injuries involved; 5 calls were for water accidents; 68 of the calls were for transporting patients at doctor's request; 45 were for heart attacks and 7 calls were false alarms. Other calls were classified as First Aid Calls but were in answer to such emergencies as cuts, broken bones, strokes, breathing difficulties, overdose cases, stab wounds and many others. Oxygen was given to 97 persons.

Squad members spent fifty hours for two drag and search calls, nine and one-fourth hours assisting the Fire Department with stand-by and 369¾ hours stand-by at Varsity, Junior Varsity and Little League activities and 120 hours of this total was spent standing-by at the building during the recent flooding in June.

Instructors spent 12½ hours teaching a first aid class to Boy Scouts and Girl Scouts.

All squad members were included in 480 hours of regular training session and 18 members who earned the E.M.T. Certificates spent 1350 hours in actual training plus the study sessions at home.

At this time plans are being finalized for the annual fund drive .... October is Rescue Squad Month in Appomattox. The committees have been set up and schedules for the Fund Drive will be published at a later date. Mrs. Nellie Paulette Almond will be Treasurer for the Drive and is heading up the Finance Committee. Serving with Mrs. Almond on this committee will be Pete Doss and Andy Scruggs.

When a Rescue Squad worker knocks on your door in October, give generously, as the people in our County always do, and help the Appomattox County Rescue Squad be able to serve you even better, if possible. This goal is not just to collect money needed to enable them to serve the people - but to strive continually to be able to serve them even better.

Supervisors Met In Regular Session Friday

A resolution was presented from the Appomattox County Development Corporation to the Board of Supervisors, meeting in regular session on Friday morning, requesting that sufficient funds be appropriated to purchase a parcel of land owned by Humble Oil & Refining company. This parcel of land fronts on U. S. 460 and is located just west of the Dairy Queen.

The Board of Supervisors unanimously approved the request.

Gene Richardson, Appomattox County Sheriff, presented the board with a list of specifications necessary for installing a law enforcement radio system. Upon the recommendation of Richardson, the board approved the state handling the bidding on equipment. The radio base will be located in the jail with "jail base" as dispatcher and having full control of the system. A separate building will be constructed to house the necessary equipment. The board also approved the purchase of equipment based on the state's recommendation after the building is completed.

Maurice P. Anglen, superintendent Norfolk Division of the Norfolk and Western Railway Company, and L. H. Callahan, Jr., general agent of Lynchburg appeared before the board presenting a new mobile agency plan the company plans to petition before the State Corporation Commission in the near future. This plan will remove the permanent agent from the Appomattox station and will place the home agent in Farmville, covering the areas of Appomattox, Pamplin, Burkeville, Crewe and Blackstone. Anglen did not ask for support of the board, but asked that they not oppose it. The board adopted the resolution.

In other business, the Board of Supervisors agreed to send letters to the Lynchburg General Hospital and to the Virginia Baptist Hospital proclaiming the week of September 24 - 30 as "Salute to Nursing Week".

Mrs. Floyd Williams, Chairman of Public Affairs, Appomattox Junior Woman's Club, requested permission to sell food on Election Day on the courthouse grounds in an area adjacent to but not blocking the voters and procedings of the election. Permission to do this was granted.

At the last meeting of the Board of Supervisors, the board received a check in the amount of $10,400.54 from the State Forestry Service as Appomattox County's portion of sales of timber taken from the Holiday Lake area by the State Forestry Service.

School Board Clarifies Policy On Out-Of-County Students

At the regular meeting of the Appomattox County School Board on Friday afternoon, Sept. 8th, J. A. Williams, Mayor of Pamplin, appeared before the board requesting that the board clarify its stand on the acceptance of out-of-county students and if the acceptance of out-of-county students is costing the county money.

Dr. A. A. Fratrick, Chairman of the School Board, explained that the board would do nothing knowingly that would cost the county money in accepting other students into the school system here and that the state reimbursed the county for outside students. R. H. Gray, board member, reported that he had checked and found that the county was receiving $10,000 for these student's expenditures. Gray then read the school policy on out-of-county students which states that the school system would not accept additional students unless they lived on a road serviced by the Appomattox County School buses.

Dr. Fratrick thanked Mayor Williams for coming to the board for clarification regarding this matter.

Frank Chuchek, General Supervisor for Appomattox County Schools, reported that the board would be seeing substantial progress in the new high school building shortly as the footings have now been poured for the gymnasium and construction will be started with the building going up fast right through to the roof. Chuchek also reported that some seeding was underway at the time of the meeting. He further stated that he would, in the near future, be checking furnishings and equipment in the Danville Junior High School to check on the durability of the equipment after being in use for two years.

Eugene Peyton, Superintendent of Schools, and Dr. Fratrick reported that they had attended a meeting in Lynchburg for board members and superintendents. The program at this meeting related to school board
